Professional Summary

Full-Stack SAP Developer with 14+ years in ABAP and SAP CRM, now in-house at Johnsonville, a US CPG manufacturer, building and supporting S/4HANA extensions. Hands-on with classic and HANA-native ABAP (OO, CDS, AMDP, OData), Fiori/UI5, and ABAP development in VS Code (ADT), with objects already transported to production. Certified on ABAP Cloud (2026), Certified SAP CAP on BTP (2025) and SAP Fiori Application Developer. Earlier: Fujitsu (technical consulting), in-house SAP CRM at Grundfos, then DXC and Accenture - covering FI/CO, SD, MM, RE-FX, and deep CRM (BOL/GenIL, middleware, Hybris/EDI). Known for a 90% runtime reduction and for training junior ABAPers.

Key Skills

Backend: ABAP OO · ABAP on HANA · CDS Views · AMDP · Open SQL · OData · RFC/BAPI · IDoc · BOL/GenIL (CRM)
Frontend: SAP Fiori · SAPUI5 / OpenUI5 · Fiori Elements · BAS
Platform: S/4HANA · ECC · SAP BTP · HANA 2.0
Process areas: PP-PI · WM · SD · MM · FI/CO/AA · RE-FX · CRM Service/Sales · CPG / manufacturing
Tools: · ADT in VS Code · ATC · Eclipse ADT · SE80 · ABAP Cleaner · GitHub Copilot · M365 Copilot

Professional Experience

IT Development & Integration Specialist| Johnsonville | May 2025 - Present

- Primary support for SEA units on the global S/4HANA instance, including the SAP integration of an acquired company (enhancements, defects, go-live) with US and SEA owners.
- Resolved a critical ABAP runtime dump in production goods-movement transactions by root-causing an incorrect BAPI parameter and auditing 30+ custom programs, eliminating short dumps across DEV/QAS/PRD.
- Delivered 10+ warehouse and production (WM/PP) enhancement objects by developing and unit-testing RF and ALV report solutions, enabling a successful enterprise production go-live.
- Fixed multiple UAT and production defects by redesigning confirmation logic and adding validation checks, restoring correct order-status handling and invoice pricing output.
- Built a read-only Transport Request Analyzer (ABAP, standard FMs) that shows release/import status, return codes, and failure step - used in CAB and go-live checks across DEV/QAS/PRD.
- Built and presented a full-stack ABAP RAP + Fiori Elements application at the company IT Symposium during the two-week onsite visit in Sheboygan, Wisconsin (USA), using ~100 lines of CDS annotations and a managed business-object behavior model to deliver a mobile-ready app with zero custom UI code under Clean Core principles.

Senior Technical Consultant | Fujitsu GDC Philippines | October 2022 - April 2025

- Led delivery as team lead, function owner, and developer: FS analysis, technical design, ABAP build, and unit test across FI, AA, CO, SD, MM, and RE-FX.
- Built S/4HANA ABAP work including CDS reports, batch-input programs, Fiori enhancements, and an OOP report with email and Smartform PDF output.
- Optimized a custom ABAP program and cut runtime by 90%.
- Designed and ran a 3-week ABAP bootcamp for 14 people (ABAP 7.5+ / OOP, reports, interfaces, Smartforms, live demos, case-study exam).

Application Analyst - SAP CRM | Grundfos IS | August 2018 - October 2022

- Enhanced SAP CRM after enablement training in Shanghai; mixed functional ownership with hands-on ABAP-CRM (BOL/GenIL).
- Built the quotation-approval ALV report and mass CRM Activity creation via BOL.
- Delivered an RFC sales-order simulation and CRM integrations to Hybris and EDI; handled output changes in OpenText Exstream.
- Ran incident/CR work and RCA, trained L1, and built Power BI reports on CRM data.

Technology Consultant III | DXC Technology | February 2017 - August 2018

- SPOC for ABAP-CRM enhancements and production technical issues.
- Resolved CRM and Middleware errors with BAs and developers; applied OSS notes.
- Ran ABAP-CRM and debugging training for the team and handled ad-hoc data extracts.

Senior Software Engineer - SAP ABAP | Accenture, Inc. | February 2012 - February 2017

Promoted Associate Software Engineer → Software Engineer → Senior Software Engineer

- Delivered WRICEF (reports, interfaces, forms, enhancements, UI) and ACE builds for CRM objects.
- Hyderabad KT, then on-site in Malaysia for IS-Retail; sub-lead for CRM Services and the Quality Review Team.
- Built custom BSP components, CRM Web UI enhancements, and Smartforms; coached the team on ABAP-CRM.
- Tiger Award for delivery with zero to minimal review points.

Education & Certifications

- SAP Certified - Back-End Developer - ABAP Cloud (2026)
- SAP Certified Associate: Backend Developer - SAP Cloud Application Programming Model (2025)
